

Vocational Studies

16-19

The Vocational Studies course is part of our Vocational Pathway. This course is for learners who are unsure of the vocational pathway they wish to pursue for the future or do not have the entry requirements for a higher level course.

Vocational Studies aims to develop vocational and study skills, alongside behaviours and attitudes, preparing learners to make informed decisions and prepare to be successful learners on the next stage of their journey.

Learners will have the opportunity to sample different vocational areas to gain an insight into the subject, gain vocationally relevant skills, knowledge of careers available in that subject and expectations at the next stage of that chosen vocational area.

In addition to vocational skills, learners will gain personal development skills and explore career choices.

Following successful completion of this qualification learners will have the skills and knowledge to make an informed decision about future study and work.

For those who know the subject they want to specialise in but don't have the entry requirements, we have the possibility of a Vocational Specialist Level 1 course which will allow you to focus on one specific subject specialism.
