

# Civil Engineering and Construction (Plant Operations) – Groundworks Certificate

16-19

Adult

This Civil Engineering and Construction (Plant Operations) – Groundworks Certificate is your gateway to gaining your full professional operators qualification if you want operate heavy plant to the exacting standards of the modern construction site this is the course for you. Once complete and the NPORS test has been passed this is your passport to a career in the construction industry and recognition of your professional operating skills.

You will have the opportunity to carry out a number of construction tasks using plant ranging for 1.8 tonne mini excavators up to 13 tonne 360 degree tracked excavators and if that's not enough you will also receive industry training using 6 tonne High vis forward tipping dumpers and road roller. At the end of the 1 year course you will have been assessed on 4 machines to gain your level 2 qualification and given the opportunity to take NPORS tests should you wish.

As a trainee operator you will be involved in basic excavation trenching etc. then progressing onto more complex excavations for example structural foundations and service excavations. All training will be delivered to the high standards required By the Construction industry training board.

Bicton College is in the fortunate position to be in partnership with Holt JCB, this allows student's access to the range of the most up to date machines currently available.
