

Introduction of Ecological Surveying

Leisure and Professional

Join our one-day course and gain hands-on experience in wildlife and habitat surveying. Perfect for beginners and nature enthusiasts, this practical course will teach you key techniques in species identification, habitat assessment, and data collection—all with expert guidance.

What You'll Learn:

- **Field Survey Techniques:** Practice essential methods for surveying wildlife and habitats.
- **Hands-On Fieldwork:** Spend time outdoors applying your skills in real-world conditions.
- **Data Recording:** Learn to collect and document ecological data.

Who Should Attend?

- **Beginners, students, or volunteers** interested in ecology and conservation.
