

Chicken Health Management and Disease control – Online

Adult

Leisure and Professional

This is a flexible online course designed to fit into your schedule, taking approximately six hours to complete, with a knowledge check quiz at the end.

With chickens now the sixth most popular pet in the UK, it is essential to understand common diseases and illnesses, what you can manage at home, and when veterinary care is needed.

Whether you are new to chicken keeping, considering rehoming or buying, or working with chickens professionally, this course will provide knowledge to general chicken health.
